Oxford Business Climate Change Pledge

- Oxford **Business Pledge**
 - climate change **is happening**
 - it will have **far-reaching effects**
 - they have a **part to play** in reducing its impact.
- Signatories put on **website**
- www.oxfordismyworld.org/business

The Oxford Business Climate Change Pledge

We recognise that:

- Climate change is happening now
- Climate change will have far reaching effects on our economy, society and environment
- We have a part to play in reducing the overall impact of our operations on the environment

Within the next year we will act on some or all of the following:

<input type="checkbox"/> Conduct a robust assessment of CO2 emissions from our own operations. Set an emissions reduction target against this baseline (e.g. 3% year on year reduction) and commit to report annually on progress.	<input type="checkbox"/> (e.g. move towards paperless offices) and disposal (i.e. reduce, reuse, recycle)
<input type="checkbox"/> Draw up a climate change action plan and appoint a key person within our organisation to help implement and drive this forward (and obtain senior level buy-in)	<input type="checkbox"/> Reduce, reuse and manage water consumption from our own operations
<input type="checkbox"/> Reduce CO2 from own operations – especially related to energy sourcing and use (e.g. switch to a green tariff), travel (e.g. implement a green travel plan) and transport (e.g. switch to biofuels), waste production	<input type="checkbox"/> Source greener supplies and suppliers
	<input type="checkbox"/> Encourage employees to sign and commit to the Oxford Citizens' Climate Change Pledge
	<input type="checkbox"/> Consider adaptation issues to climate change - how is it going to impact on our organisation (and how can we plan ahead to deal with the consequences – flood, drought, heat-wave, infrastructure issues)?

Signed: _____ Date: _____
